My alphabet chart

Read left to right across each row, then move to the next row.

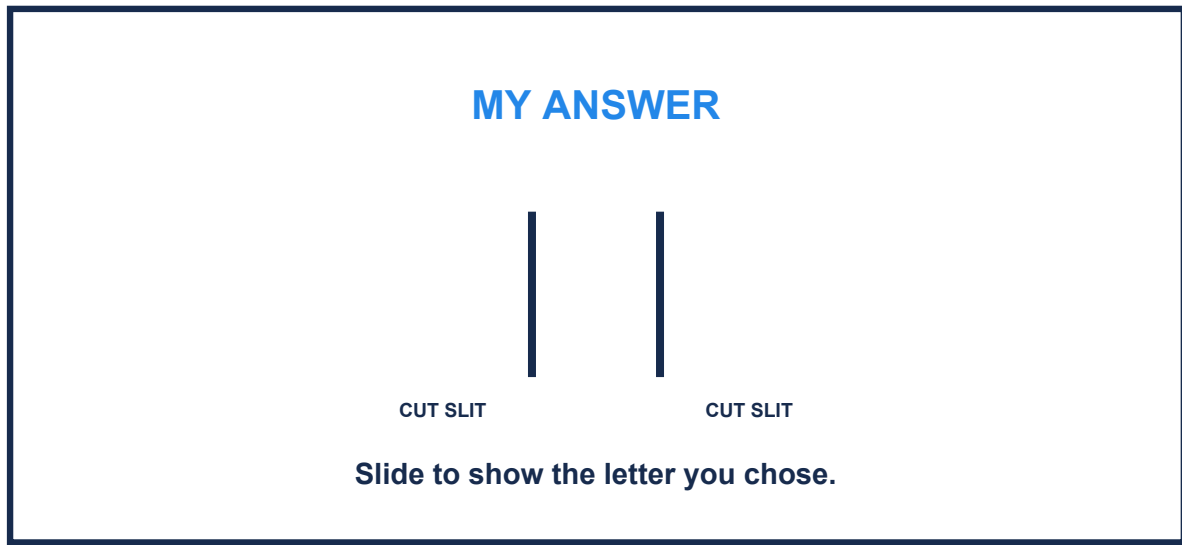

START: A

FINISH: Z

Show your missing letter

Optional paper answer selector. A grown-up prepares the card and strip.

1 / CUT

Cut the outside rectangle and ONLY the two vertical slits.

2 / JOIN

Join the strips on page 33 in A–Z order. Use the glue tabs.

3 / THREAD

From behind: up through the left slit, across the front bridge,
then down through the right slit. Keep the middle bridge whole.

4 / ANSWER

Look at a worksheet gap. Slide the missing letter into the window.

5 / CHECK

A grown-up checks against the answer key. This is a selector,
not an automatic answer-checking device.

Pencil-only practice works too. The slider is optional.

Make one A-Z answer strip

Cut each long rectangle. Join the letter cells without gaps or overlaps.

PART 1 / A-J

A	B	C	D	E	F	G	H	I	J	GLUE NEXT
---	---	---	---	---	---	---	---	---	---	--------------

PART 2 / K-T

K	L	M	N	O	P	Q	R	S	T	GLUE NEXT
---	---	---	---	---	---	---	---	---	---	--------------

PART 3 / U-Z

U	V	W	X	Y	Z	PULL
---	---	---	---	---	---	------

Glue each NEXT tab under the following strip's left edge.

Keep J beside K and T beside U. All letter cells stay the same width.

A little practice, often

Suggested ages 4–6 with support, when uppercase letters are familiar.

START WITH ONE LETTER PAGE

Every letter has six short tasks: find, trace, fill a gap, before/after, put three letters in order, and finish a five-letter row.

Use the alphabet chart on page 31 whenever a clue is needed.

PRACTICE BEFORE INDEPENDENT REVIEW

The focus letter at the top is a deliberate clue on pages 1–26.

Pages 27–30 mix letters without naming the target answer in the title.

Let the child try, say the row together, then check the key.

BEFORE A AND AFTER Z

Our chart starts at A and stops at Z. START and END are printed where there is no earlier/later letter within this chart. Do not wrap.

OPTIONAL ANSWER SLIDER

Pages 32–33 make a reusable selector for missing-letter answers.

A grown-up cuts and joins it. Pull the strip to show the chosen letter.

Use the answer key to check; the tool does not check automatically.

TRACE AND WRITE

The dotted letters use simple centre-line strokes with start dots.

Follow the dots, then try independently. These are uppercase tasks.
